Art Unit: 3728

1. Prosecution in the subject application is hereby reopened to afford applicant the opportunity to correct the items noted below.
2. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The Declaration states that the patentee claimed more or less than the patentee had a right to claim. The MPEP now indicates that this is improper. See MPEP 1414.

The Declaration is also defective because it could be misleading in that it indicates that the averments therein are made by the legal representative of the inventor. However, the Declaration is signed by the inventor himself.

3. Claims 1-13 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Declaration is set forth in the discussion above in this Office action. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

4. Additionally, the Consent of Assignee filed by applicant on 4/27/07 could not be accepted because it was not timely filed. However, it would appear that a duplicate of that paper could be filed in response to this office action for entry and consideration.

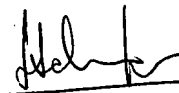

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacob K. Ackun Jr. whose telephone number is (571)272-4418.

The examiner can normally be reached on Monday through Friday 8.30AM-5.00PM.
